Social skills and competences Leadership, diplomacy, intercultural empathy and adaptability. I managed as project leader several international cooperation programs directly involved with authorities and politicians of different nationalities and cultures. I headed the institutional relationships office of the Canary Islands Government in Madrid, and served as advisor of three Government Presidents (from different political parties).
Representation skills: I have represented Western Europe or Spain in many international fora or unions (IUCN, Council of Europe, Bern Convention, Marpol, etc).
Team work: At ICONA, the ECNC or the OAG, I have organised, trained and lead efficient working teams (trained as "Time manager", leadership by experience and military training, lieutenant jr.).

Organisational skills and competences System-thinking approach (gained through study of Ecology and Physics) allows me to organise many things independent of scale or matter: libraries, biological collections, plant nurseries, legal structures, film scripts, elections, work programmes, institutions, or large land use schemes. Skills acquired by specific course training and experience: I have been contracted for institutional building projects, for organising large conferences and symposia, for chairing meetings, setting up new institutions, etc. (a "born organizer" for some people).

Technical skills and competences Research planning, natural resources/ land use planning; analysis & evaluating in nature/ environmental affairs acquired in 35 years of professional activity (incl. 20 technical projects).
Prospecting biodiversity and taxonomic skills; parallel permanent activity as hobby-entomologist (1 new tribe, 4 new genera and over 75 new species described).
Reporting: 35 years writing technical reports mainly on environmental
Legal drafting: 7 legal drafts produced (Spain, Cape Verde and Equatorial Guinea).
Scientific editing: 20 years experience as editor of scientific journals (Vieraea & JNC).
Teaching; over 10 years teaching university students and at special masters and training courses.
Lecturing in public fora (over fifty conferences given).

Computer skills and competences Office suite, bibliographic software, graphic design software, database design & configuration, phylogenetic scientific software, web-page manager, etc at user level. Experience in computer infrastructures acquired in Computerland -Tenerife (private sector).

Artistic skills and competences	Nature documentary script writer & presenter (14 documentaries produced) Scientific illustration (line drawing B&W)
Other skills and competences	Business experience: manager of a private agriculture company Agricola Tauce SA (banana prod.). Accounting: experience in the private sector and public foundational sector World traveller. Scuba diving. Digital macrophotography.
